Capabilities & Company Overview

DARKTRACE FEDERAL

Darktrace Federal leverages AI and machine learning to continuously learn an agency's 'pattern of life'. Darktrace Federal autonomously neutralizes emerging threats, insider threats, supply chain compromise, nation state attacks, and a range of other sophisticated threats in real time — across the kill chain, and throughout the digital ecosystem.

MISSION STATEMENT

Darktrace Federal delivers comprehensive AI-powered solutions to defend the U.S. government from cyber disruptions and ensure mission resilience.

Our Capabilities

Coverage spans on-premise networks, cloud, OT, applications, email systems, and zero trust architectures, empowering agencies to disrupt threats across the digital ecosystem.

- **Detect**: Full mission environment visibility and alerting for teams to stay ahead of attackers
- **Respond:** Machine-speed reaction to actively defend mission operations and disrupt attackers through real-time surgical responses to maintain normal operations
- **Intelligent Augmentation:** Accelerating situational awareness and enhancing security teams' ability to identify and prioritize incidents continuously, saving time for human teams and serving as a force multiplier
- **Report:** AI-written reports to accelerate decision making with real-time visibility and metric-driven impact understanding
- **Data Visualization:** Real-time visualization of system architecture and activity throughout entire mission environment to enable intuitive and easy investigation workflow
